

Rolled wire

Mechanical properties

Thanks to our wire rolling technology we are able to offer our customers the flat wire and square wire they need, responding faithfully to the specific needs of each project.

With our production process we pursue the most comprehensive specialisation in wire rolling in order to provide our customers with the exact wire solution they need for the manufacture of their products.

Our customer-centric approach drives us to optimise our processes and resources to deliver optimal results, without compromising on quality.
